

BIZOWIZO

CROWD REVOLUTION 3.0

Connecting ideas, people, and support.

Great ideas need more than capital

Creative people lose visibility, trust, and community before their potential is even understood.

The Core Problem

Too complicated: Ideas are explained in long texts before emotion and value come across.

Too passive: Supporters often remain mere funders instead of an active community.

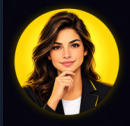

Too disconnected: Video, reach, funding, live dialogue, and messenger live in isolated solutions.

Our answer: a stage where enthusiasm becomes visible, people connect, and a dream can turn into a movement.

Two roles. One movement.

BIZOWIZO clearly separates the roles – and connects both in a shared mission: making ideas visible and driving them forward together.

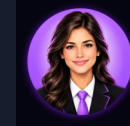

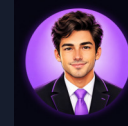

BIZO

Founders, Makers, Visionaries

Shows the idea: with a clear profile, a campaign, and a 60-second pitch.

Builds trust: through updates, live pitches, answers, and transparent milestones.

Mobilizes people: attention becomes a community, community becomes momentum.

WIZO

Discoverers, Supporters, Ambassadors

Discovers early: short pitches make ideas quickly understandable and comparable.

Empowers directly: through coins, following, sharing, and honest feedback.

Expands the movement: personal links can permanently attribute real people; commission is generated only from qualified support.

60 seconds that move things

No endless texts. No hidden details. The 60-second pitch creates clarity, emotion, and focus on what matters.

Maximum Focus

A BIZO has exactly one minute to convince. This creates a feed full of energy and makes ideas quickly comparable.

Direct Action

Every pitch video is directly connected to the campaign. Support, following, and sharing happen without detours.

Authentic Dialogue

The pitch is just the beginning. Through live updates and battles, the idea becomes a transparent, shared journey.

Preview — feed density and pace

From pitch to real community

Every step builds on the previous one. BIZOWIZO connects discovery, reach, live experience, funding, and communication.

01

Pitch Feed

Discover and instantly understand ideas in 60 seconds.

02

Follow

Build a real community and make progress visible.

03

Live

Live pitch starting at 500 real followers; battle qualification at 1,000.

04

Support

Coins, gifts, and milestones connect impact and progress.

05

Messenger

Invitations, updates, thanks, rewards, and shipping data stay within the system.

Philosophy: Enthusiasm becomes a movement. From movement arises the chance to realize a dream together.

WIZO impact becomes visible

WIZOs discover ideas, empower projects, and can translate reach into transparent, rule-based ambassador opportunities.

1 · Share

An active real WIZO shares a server-generated personal link.

2 · Attribution

A valid registration can be permanently attributed to the WIZO profile.

3 · Qualified Support

Only actually booked, non-reversed coin support can generate commission.

4 · Transparency

Attribution, booking, risk period, and availability appear in the private ledger.

No income guarantee: Sharing or registration alone does not generate earnings. Refunds, chargebacks, fraud checks, program rules, and a 30-day risk period remain decisive.

Support needs trust

BIZOWIZO treats coins, support, and payouts not as show elements, but as transparent financial processes.

1:1

Euro / Coin

One coin equals one Euro. The campaign goal remains understandable for BIZOs and WIZOs.

2×

Double Entry

Wallet and ledger are booked server-authoritatively. Balances do not arise from demo or client values.

60

Fixed Campaign Days

An activated campaign receives a clear timeframe and milestones at 40, 70, and 100 percent.

30

Days Risk Period

Fees, reversals, and availability are verified before a payout path can be established.

Success becomes visible – payout remains tied to clear prerequisites.

Why your support makes the difference now

01

Be a pioneer of a new category

BIZOWIZO combines 60-second pitches, live battles, crowdfunding, and community power into a novel short-crowdfunding experience. Your support gets the Crowd Revolution 3.0 ready for launch.

02

Realize not just one dream – but thousands

By building BIZOWIZO, we create the stage where founders, creative people, and bold makers can make their ideas visible and realize them together with a real community.

03

Help build the global movement from the start

Your support strengthens product, security, real coin processes, international market entry, and community building – so that BIZOWIZO can connect people everywhere from Dubai.

500,000 EUR / Coins for the next leap

500,000

EUR = 500,000 Coins

One Euro equals one Coin. The goal is clear, understandable, and without hidden conversions.

01 Product & Security

Further develop web and app, harden critical financial and campaign processes, ensure quality and scalability.

02 International Market Entry

Position BIZOWIZO internationally from Dubai, acquire real BIZOs, and open up new markets.

03 Community & Campaigns

Activate WIZOs, make good pitches visible, and build sustainable communication between supporters and projects.

The final operational allocation transparently follows real demand; this document does not invent percentage budgets.
